Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. The indicated allowability of claims 18, 19, and 21-23 is withdrawn in view of the newly discovered reference(s) to Shin-Etsu Chemical Company. Rejections based on the newly cited reference(s) follow.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 18-19 and 22-23 are rejected under 35 U.S.C. 102(b) as being anticipated by Shin-Etsu Chemical Company (EP1164599), cited on Applicant's IDS.

Shin-Etsu discloses Applicant's magnetic material on page 4, lines 51 and 55-58 and page 5, lines 1-3. Examples 3-2(p.7) and 3-4(p.8) disclose 1% of terbium(Tb). An amount of gallium of up to .2wt % is disclosed on page 5, lines 40-42.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claim 21 is rejected under 35 U.S.C. 103(a) as being unpatentable over Shin-Etsu, cited above.

Shin-Etsu discloses the claimed invention except for a multipolar magnet. The examiner takes official notice it would have been obvious to one having ordinary skill in the art at the time the invention was made to dispose Shin-Etsu's permanent magnet with a multipolar profile.

Allowable Subject Matter

6. Claims 1-17, 24-29, 32 and 33 are allowed.

7. Claims 20, 30 and 31 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

1. The following is a statement of reasons for the indication of allowable subject matter: Shin-Etsu, the closest prior art of record, failed to disclose or teach an R-T-B system having both Zr and Nb, nor wherein Nb is dispersed in the main phase and the grain boundary phase of said sintered body, nor wherein Zr is dispersed in the grain boundary phase of said sintered body.

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
